

Mail Services Phishing - 4/11/2018

The below message is another form of phishing, attempting to convince users that their mailbox has reached some sort of "limit" and will be terminated. This is simply not true. Who is the sender's address? This is definitely not a TTU staff member, or anyone from Microsoft.

From: Mail Event System <jack_jacob@mednax.com>

Subject: Mail Services Limit

This message was sent securely

| Microsoft | Outlook | Office 365 |

Your mailbox has now significantly exceeded the space allocated to it.

Emails sent to you when your mailbox is in this state may be **not delivered**.

People trying to contact you will receive a message to this effect. Take action **below** to ensure that your mailbox is brought back under limit or increased.
