

Final Notice Phishing - 5/10/2018

The following email was reported for phishing. Below we show a theoretical known user who has been compromised. The message attempts to phish the user into believing that their mailbox limit has been exceeded, and that they need to login to unlock their mailbox. This is indeed false information, as Tennessee Tech does not lock mailboxes for size. Be aware that you are not authenticating to a phishing site, such as the one below!!!

From: "User, Joe" <JoeUser@tntech.edu>

Subject: Final notice

Dear User,

You have exceeded your mailbox allocated limit, and all incoming and outgoing mail has been temporarily blocked.

Kindly [click here](#) and follow prompt to upgrade to the new 50GB mailbox size.

Thank you.

Tennessee Tech University.
