

# MathWorks MatLab TSH Installation Instructions

[Expand all](#) [Collapse all](#)

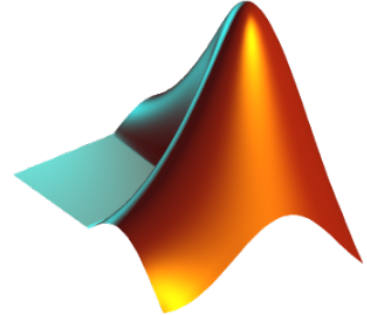

## Overview

### Overview

MatLab is used to analyze data, develop algorithms, and create mathematical models. This article guides you in installing MathWorks MatLab.

MatLab TSH (Total Student Headcount) is available to Engineering students *only*.

## Matlab install

### Installing MathWorks MatLab

1. Log in to your MathWorks Account at [mathworks.com](https://mathworks.com) that is associated with your university email address. If you don't have an account, create one using your university email address.
2. Click on your profile name in the upper right-hand corner and select **Associate License**.
3. Enter the **Activation Key** below.
4. Click "**Download your products now**" or go to [mathworks.com/downloads](https://mathworks.com/downloads)
5. Click the **download** button for the current release.
6. Choose a supported platform and download the installer.

**Activation Key:** 10758-50302-49746-24324-78902

**Select Release:** R2019a

**R2019a File Installation Key:** 20695-45701-10896-07098-36670-39893-02945-63879-33170
