

Accessing LabDrive

[Expand all](#) [Collapse all](#)

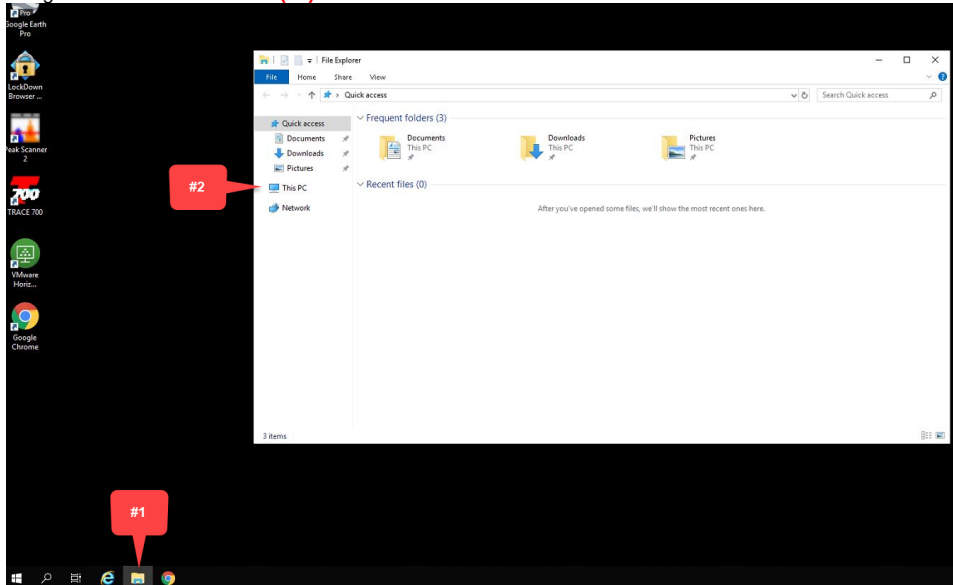

Overview

This article discusses how to access LabDrive in University computer labs.

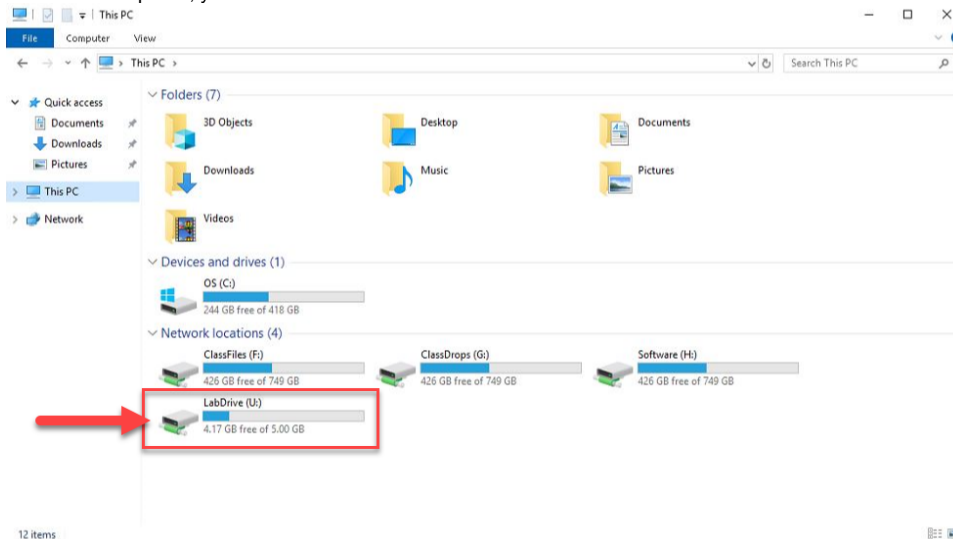

Windows10

Accessing LabDrive in Windows

1. To access LabDrive, select the **File Explorer (#1)** icon  in the taskbar. In the File Explorer window, look to the left-side navigation and select **This PC (#2)**.

2. In Windows Explorer, you should see **LabDrive** in the list of Network Locations.

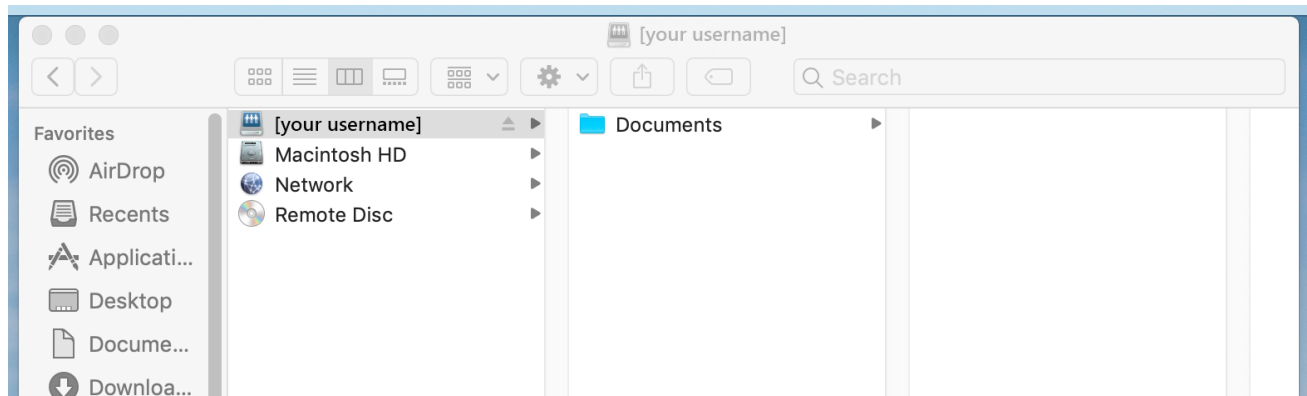

Mac OS X

Accessing LabDrive on Mac OS X

Using a Mac in a computer lab, LabDrive will be visible on the desktop as a mounted drive with **your username** as the title.

LabDrive can also be accessed from Finder, where it will appear as a folder with your username as its title.
